

Databricks Libraries

Last updated by | Wesley Boyd | Jul 23, 2019 at 7:06 AM GMT+1

In order to provide the functionality for ingestion and data processing the following libraries have been identified. These libraries are made up of python libraries or Scala and JAR packages.

To install a library on Databricks please see the Libraries documentation [here](#) 

Tag	Name	Language	Source Repo	Co-ordinate/Source	Descripti
Ingestion	com.creatyitics:spark-excel_2.11:0.11.0	Scala	Maven	https://mvnrepository.com/artifact/com.creatyitics/spark-excel_2.11/0.11.0-beta1 	Used t
Anonymisation	Faker	Python	PyPi	https://pypi.org/project/Faker/ 	Providi and ge
Spatial	org.datasyslab:geospark-sql_2.3:1.1.3	Scala	Maven	https://mvnrepository.com/artifact/org.datasyslab/geospark-sql_2.3/1.1.3 	Used t via Spa
Spatial	org.datasyslab:geospark-viz:1.1.3	Scala	Maven	https://mvnrepository.com/artifact/org.datasyslab/geospark-viz/1.1.3 	Used t
Spatial	org.datasyslab:geospark:1.1.3	Scala	Maven	https://mvnrepository.com/artifact/org.datasyslab/geospark/1.1.3 	Used t in Spar
Data Quality	validate_email	Python	PyPI	https://pypi.org/project/validate_email/
